REPORT NO.

CD NO.

DATE DISTR. 30 March 1951

NO. OF PAGES 1

NO. OF ENCLS.
(LISTED BELOW)

SUPPLEMENT TO
REPORT NO.

25X1X

1. The airfield was east of Chkalov (55°08'E/51°46'N), Chkalov Oblast, about 1 km northeast of the Tsviri Loring Machine Plant. (sic)
2. The landing field had a firm grass cover but no special runways.
3. Four large hangars, each about 120 x 40 x 30 meters, were in the western section of the field, along the road from the 1st camp to the boring machine plant. The flight control station, the weather station and other buildings were in the north section, and three fuel containers, each about 3 meters in diameter and 6 meters high, with a silver sheen, in the south section of the field.
4. The occupation of the field varied. Biplanes and twin-engine aircraft, from each of which 15 parachutists jumped, were seen.

Comment:

The information confirms previous observations according to which it was assumed that a pilot and a parachute school are stationed at the field.
